Frequently Asked Questions

Your Property. Our Responsibility.

At M&A Management Solutions, we believe property owners deserve straightforward answers, clear communication, and transparency. Below are answers to common questions about our services.

How involved do I need to be in managing my property?

As involved as you'd like! Every property owner has different preferences. Some enjoy being closely involved, while others prefer a more hands-off experience. We tailor our management approach to your needs, keeping you informed while handling the day-to-day responsibilities of your investment.

Are there any hidden fees or additional charges?

No hidden fees. We believe in transparent pricing and clearly explaining management fees, leasing-related charges, renewal fees, and any other agreed services before you sign. Any additional costs or services are handled according to the management agreement, with communication and approval where required. Our commitment is to avoid surprises—not to suggest that property ownership never involves unexpected expenses.

Do you charge termination fees?

No. We don't believe in holding clients hostage. We believe in earning your business, not locking you into a relationship you're unhappy with. That's why we charge $0 in property management termination fees. If you're happy, we'd love to continue working together. If you decide it's time to move on, no hard feelings. Just a handshake and a thank-you for the opportunity. Your property. Your choice. No unnecessary commitments. Reasonable notice and any outstanding obligations remain subject to the management agreement.

How do you handle maintenance requests and emergencies?

We evaluate maintenance requests based on urgency and coordinate appropriate service providers. Emergencies involving immediate risks to occupants or the property receive priority attention. We keep owners informed of significant repairs and expenses and follow the authorization limits established in the management agreement.

How do you determine rental rates and handle lease renewals?

We take a strategic, market-driven approach to rental pricing and lease renewals. Our goal is to maximize your property's long-term performance while balancing rental income, occupancy, and your individual investment goals. Leasing and renewal documentation are coordinated with the appropriately licensed brokerage where required.

Do you work with preferred vendors, or can I use my own contractors?

Yes. We maintain an established network of service providers for maintenance, repairs, and property improvements. We are also happy to coordinate with your preferred contractors whenever practical. Our priority is quality work, responsible costs, and the best interests of your property.

Do you provide leasing and tenant placement services?

Yes. Leasing and tenant placement services are available through our affiliated licensed real estate brokerage. Depending on the engagement, services may include rental pricing recommendations, marketing, showings, applicant screening, lease preparation, and move-in coordination. Brokerage services are provided separately from M&A Management Solutions' property management operations.

How do you screen prospective tenants?

Tenant screening is coordinated through our affiliated brokerage and applicable screening providers using consistent, legally compliant criteria. Depending on the application and applicable law, screening may include income and employment verification, credit history, rental history, and landlord references. All decisions are made in accordance with fair housing and other applicable requirements.

Will I receive monthly financial statements and year-end reports?

Yes. We provide monthly owner statements detailing rental income, expenses, and relevant account activity, along with year-end accounting summaries and applicable tax documentation to make reporting to your CPA or tax professional easier.

How will I receive my rental income?

Owner disbursements are available by ACH direct deposit or paper check, according to your preference. We intend to offer both methods without an additional disbursement fee, subject to confirmation of our banking and software arrangements.

Can you pay my condominium fees, mortgage, insurance, and other property-related bills?

Yes. We can tailor the management agreement to your needs, including coordination of condominium or HOA fees, insurance premiums, mortgage payments, utilities, and other recurring property expenses. Payments are subject to available funds, the agreed authorization, and sufficient lead time for processing.

Do you coordinate with condominium associations and homeowners associations?

Yes. We coordinate with condominium associations, HOAs, building managers, and their representatives on matters such as move-in and move-out requirements, building access, maintenance, association notices, and required documentation.

Do you work with out-of-state and international property owners?

Absolutely. We welcome owners who live locally, elsewhere in the United States, or abroad. We can communicate through email, phone, or WhatsApp, helping you stay informed and involved wherever you are located.

Publication note: Confirm payment methods and fees, maintenance authorization procedures, brokerage arrangements, and all advertised services against final operating policies and agreements before posting.
